

Heavy-Duty Whole-House Sediment Water Filter

F74C

Heavy-Duty Whole-House Sediment Water Filter

ENSURES A CONTINUOUS SUPPLY OF FILTERED WATER.

F74C

KEY FEATURES

- Fine filter prevents the intake of particles, such as rust and grains of sand
- Patented reverse rinsing technology reduces need for replacement filters
- Easy-to-read pressure gauge
- Gauge indicator lets homeowner know when to backwash for optimum performance
- For homeowner convenience, automatic timer/actuator can be set to reverse rinse automatically
- Easy installation — both vertical and horizontal mounting is possible, and plug-in transformer means no difficult wiring
- Universal outlet fitting for simple discharge to floor drain
- Filtered water extends the life of household appliances
- Low maintenance automatic sediment filter — set it and forget it
